Hi Serena,

Thank you for your clarification message (below). We can forward this information on a Council agenda in May for Council's consideration. I have already relayed some of my comments on this to Mayor Harrison and to Councillor Lavery who is the Chair of our Agricultural Advisory Committee.

Council may consider providing a letter of support for a grant application on the assumption that SFAS writes the grant application and on the understanding that the City cannot commit this year to take a leading role on a Community Food Action Initiative. For 2019, the City has determined its work plan and the Development Services Department staff are already involved in a number of core and side plate projects (our plate is full). There are also no City funds budgeted to augment the grant you speak of; I am unclear if matching funds from local government are being requested or not.

That being said, I can commit a staff person to liaise with you and the leadership of this effort (perhaps through our Agricultural Advisory Committee), and explain the policies, regulations, data and studies we already have in place that support the protection of farmland and farm markets in Salmon Arm. I am also aware of efforts and actions in this regard which are underway by the City's Economic Development Society and possibly similar efforts by the Columbia Shuswap Regional District.

CITY OF
SALMON ARM

We are hoping to open up discussion on adding more food security language to Salmon Arm's OCP to promote long-term sustainability and resilience of our food system. Some examples from other OCPs (Squamish, Sooke) include:

- Analyze current and projected agricultural conditions in Squamish and consider how agricultural opportunities may shift under climatic changes within the region (e.g. changes in growing-degree days and frost-free days). Identify impacts to agricultural lands in related risk assessments.
- Work with the Squamish Food Policy Council to map and monitor neighbourhood food assets. Determine food-related assets, infrastructure, programs and resources in the community, as well as needs and gaps.
- Adopt a local food purchasing policy and increase the percentage of local and sustainable food purchased by the municipality and made available for sale in public facilities, such as healthy food and beverage sales in recreation centres and public buildings.
- Consider policy within the Sooke Zoning Bylaw to implement an appropriate minimum on-site or off-site requirement for food growing space or community garden based on proposed gross floor area for condominium development and multi-family projects;

I am not sure where you are in the revision process and how we can provide input?
Perhaps no grant-writing is needed.

3

Please advise,

Serena Caner
President
Shuswap Food Action Society

Dear Applicant,

We are pleased to inform you that Interior Health has Community Food Action Initiative (CFAI) single year funding available to support communities within the Interior Health region to improve community food security. All CFAI 2019 funds will be used for single year funding.

This opportunity is open to local governments, Aboriginal governments and organizations, schools and school districts, registered non-profits and charities, and community coalitions and councils within the Interior Health region. Please find application details in the single year application guide attached.

There is a total of \$90,000 in funding available with proposals up to \$15,000 being considered. This funding is to support project costs starting in summer 2019. Funding must be spent by March 31st, 2020.

The objective of the single year funding is to support projects that build community capacity to address food security through increased awareness, knowledge, skills and networking. Please see the [Interior Health Food Security website](#) for examples of projects that have been funded in the past. Applications will be accepted until 5pm PST Wednesday May 29th, 2019. Successful and unsuccessful applicants will be notified by Wednesday June 26th 2019.

Please submit your application electronically by 5 pm PST, Wednesday May 29th 2019 via email to cindy.bossio@interiorhealth.ca. If you have any questions about the guidelines, please contact Cindy Bossio, Public Health Dietitian, by email or by phone (250-420-2229).

We look forward to continuing our work with communities and organizations throughout the Interior Health region in pursuit of increasing community food security. Thank you for your continued interest and efforts in this important field of work.

Kind regards,

Janice Talarico
Healthy Communities Nutrition Manager

*Please note that on-going financial support for food security initiatives is dependent upon the delivery of provincial funds to the Interior Health Authority and projects meeting agreed-upon deliverables.

INTERIOR HEALTH
Healthy Communities Nutrition Manager
PO Box 1120, 570 Pine Avenue
Sparwood, BC V0B 2G0

Interior Health is pleased to announce single year funding will be available through the *Community Food Action Initiative (CFAI)* to support food security work in communities in the Interior Health region. These funds are to be used between July 2019 - March 31st, 2020.

The overall goals of CFAI are to:

- Increase awareness about food security
- Increase access to local healthy food
- Increase food knowledge and skills
- Increase community capacity to address food security
- Increase development and use of policy that supports community food security

The intention of this round of single year funding is to:

- Support initiatives that meet one or more of the overall CFAI goals
- Support communities at varying stages of readiness
- Support rural, remote and Aboriginal communities when possible
- Build capacity in communities to take collective action to address food security such as:
 - Provide support to communities to build on existing initiatives
 - Provide support to communities to explore new and emerging innovative ideas
- Provide support for organizing community collaboration
- Support communities that have collaborative capacity in place and are ready to:
 - develop and/or coordinate a Regional Food Security Network
 - develop and implement a food security plan

Eligible Applicants

- First Nations governments and organizations
- Local governments
- Schools or school districts
- Non-profit organizations
- Community coalitions or councils

Funding Available

There is a total of **\$90,000** of funding available. The maximum amount available per grant is **\$15,000**.

Note that we aim to distribute funding across the **IH region whenever possible, depending on the applications we receive. We also take into consideration which communities have and have not received significant CFAI funding in recent years when reviewing applications of similar strength.*

Single Year Project Types

Examples of eligible initiatives:

- food action projects that involve multi sector partnerships, and where projects demonstrate strong potential to build connections, partnerships and sustainability
- hosting community engagement event(s) to initiate discussions or collaboration opportunities
- building the capacity or reach of an existing initiative
- food security network development or coordination
- food security plan development or implementation
- carrying out a needs or feasibility assessment

To apply for funding

Please submit a proposal (3 pages maximum plus 1 page budget, no smaller than 11 point font) including:

- Explanation of how funds will be used including how the proposed activity meets **at least one** of the CFAI goals and how the application aligns with other aspects of this year's intention for the single year grants
- Statement of how the activity will address a relevant local/regional issue
- Explanation of the role of stated partners involved, including the Interior Health Public Health Dietitian in your region
- Identify whether the activity is connected to current/ongoing initiative(s) or a new and emerging idea
- How the proposal will build capacity, collaboration, connections and relationships
- Explanation of how activity will be evaluated (ie. expected measurable outcomes, appropriate measurement tools or methods)
- Statement of sustainability (ie. plans to continue with work after CFAI funding period)
- A letter of support (LOS) from at least one partner agency, local or First Nations government, or other applicable group is required. The LOS should demonstrate the partner's engagement and expected contributions to the proposed project.
- Budget (*see template on next page*). Please note: proposals demonstrating reasonable in-kind contributions and committed monetary contributions from the host agency are preferred.

Proposals can be sent to cindy.bossio@interiorhealth.ca by Wednesday, May 29th 2019 at 5pm PST

Memorandum of Understanding
Between

City of Salmon Arm

and

Shuswap Food Action Cooperative

I. PURPOSE

The City of Salmon Arm (City) and the Shuswap Food Action Cooperative (SFAC) (hereinafter the Parties) both see the value in promoting healthy eating and community food security in order to support a healthy and thriving community. This Memorandum of Understanding (MOU) illustrates the formal process in which communication will occur between the Parties.

II. DEFINITIONS

"Community food security exists when all citizens obtain a safe, personally acceptable, nutritious diet through a sustainable food system that maximizes healthy choices, community self-reliance and equal access for everyone" - *Bellows and Hamm, 2003*.

"Healthy eating promotes and supports social, physical, and mental well-being at all ages and stages of life, and contributes to the overall health of individuals, families, and communities" - *BC Healthy Communities Society and Healthy Families BC, 2013*.

III. COMMUNICATION METHODS

Shuswap Food Action Cooperative:

SFAC will send a representative(s) to one of the City's two (2) Committees most related to food security: the Social Impact Advisory Committee or the Agriculture Advisory Committee on at least a bi-annual basis to provide formal updates for City Council, via the Committee(s).

When seeking partnership on grant/funding or other opportunities, SFAC will send a representative(s) to one of the above mentioned Committees to request support on the said opportunity.

City of Salmon Arm:

Any information, including a Committee's recommendation, received by the Social Impact Advisory Committee or the Agriculture Advisory Committee from SFAC will be

recorded in the said Committee's Minutes, which will be submitted to and received by City Council. If City Council authorizes further action, direction will be provided.

The City will communicate the decision made by City Council back to SFAC via email to the SFAC representative(s) whom made the original request.

Communication with Other Stakeholders:

This MOU does not restrain or limit the Parties from seeking partnerships with other organizations in any capacity.

IV. RESPONSIBILITIES

This MOU does not assume automatic partnership between the Parties.

Shuswap Food Action Cooperative:

The Committee level is to be the first point of contact for all communications with City Council.

When scheduling an appearance at one (1) of the said Committee meetings, the SFAC will communicate with City staff at minimum two (2) weeks prior to the scheduled Committee meeting date.

Should the SFAC bring forward a collaborative opportunity, they will identify a lead within their organization for the agreed upon opportunity. This lead will take responsibility for the organization, grant/report writing, and other related activities involved with the implementation and execution of the agreed upon opportunity.

If the grant application is approved the following must occur and be submitted to the City:

- Establishment of a Project Committee to oversee the project which contains at least one (1) City Council Member;
- The membership and contact information of the Project Committee and which Organization each member represents, if applicable;
- A detailed budget identifying the use of the funds which must be reviewed and approved by the Project Committee;
- Submission of all Project Committee minutes;
- The Project Committee must review and approve all expenditures (and record same in the minutes) to initiate payment by the City;
- All invoices and associated backup requiring payment accompanied by a summary of same; and
- Completion of required progress and final reports (and any other grant criteria requirement).

Upon completion of the project by SFAC the City will complete the grant claim.

City of Salmon Arm:

Upon endorsement of a collaborative opportunity by City Council, a staff member from an appropriate or relevant City Department will be assigned to assist the SFAC lead person by supplying technical and/or background information the City may readily have access to and is related to the opportunity, subject to *Freedom of Information and Privacy Legislation*. Depending on workload and capacity, other methods of support, including in-kind support for a project or program, may be considered by the relevant City Department Head.

If Council supports the submission of a grant application (regardless of whether a City contribution is required) the following must occur:

- A Council motion is required to amend the current year's financial plan identifying the source of funds;
- A Council motion outlining the City's commitment;

Upon completion of the grant application by SFAC the City will submit same.

V. TERMS OF UNDERSTANDING

It is understood that this MOU does not create legally binding relations.

City of Salmon Arm's Process:

It is understood that the timeline between the date when a Committee meetings' recommendation is made to the time City Council receives the said recommendation can vary from weeks to several months, depending on Committee and City Council meetings scheduling.

Any grant application for a project or program that involves monetary funding by the City of Salmon Arm is not likely to be supported if no funds have been allocated in the City's annual budget towards such a project or program.

MOU Renewal Process:

The term of this MOU is for a period of two (2) years from the effective date of this agreement and may be extended upon written mutual agreement. The MOU shall be reviewed prior to the two (2) year term expiry date by both Parties to ensure that it is fulfilling its purpose and to make any necessary revisions.

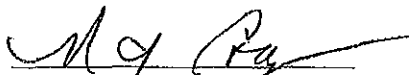

As a reminder of the upcoming MOU renewal, a SFAC member will connect with City staff via email at minimum two (2) months prior to the renewal date. At that time, SFAC will have already reviewed the MOU with its membership and will submit any requested changes, if any, to City staff at that time.

April 23rd 2019

Dear Alan and Salmon Arm Councilors,

It was while walking our dog Sam around town this winter that I have been thinking about dynamics concerning the use of the McGuire Lake path; especially with respect to the rapidly falling darkness between the seasons – as well as long hours of darkness in the winter.

Closer to the highway and road circling the lake, street lighting helps visibility for walkers, and gives a reasonable sense of safety as you begin to walk on the McGuire Lake path. The hospital corner of the lake too is well lit from lights on the hospital itself. Very quickly though, the light dissipates and darkness reduces your ability to 1) See other pedestrians, or 2) See the quality of the path surface under foot. The sense of safety I think is the first consideration to look at, as people walking around the lake (or anywhere) in darkness or near darkness should be able to see other people approaching on bikes, jogging, skateboarding or walking. The second point about the path surface would concern icy or tripping type hazards that could result in accidents if not illuminated by street lighting.

People could just avoid walking around McGuire Lake at certain times or not go there altogether in the Winter, which would be a shame. That might be the situation now, but we can encourage more people to enjoy our lake by some improvements to these elements.

I think that the lake should be ringed by effective lighting that would reduce the problems I evaluated above, and would make the circular walk stand out to visitors too year- round (as the lit fountain does too) and highlight our wonderful lake.

The lighting could be regular street lights that fade up as the natural light fades and fade to dark at a reasonable time ... Whether solar lighting could be part of the solution – would be a higher initial investment, but a minimal future maintenance cost.

Thank you for hearing my thoughts on this situation,

Best regards,

Richard Morton

Subject: Concern about drones

Body Dear Mayor and Council, I'm writing from Ontario, as I read the following: <https://www.saobserver.net/news/regulating-drones-harassing-birds-tricky-for-salmon-arm-council/> I wrote already to airport authority to request that drones be chipped by law (as pets are chipped too). You could write a petition, if you like to ask change of regulations, so drones would be chipped for easier recognition. I hope that would help. Kind regards,
Susana

Regulating drones harassing birds tricky for Salmon Arm council

City seeks clarity and options on restricting drone use in sensitive ecological areas

MARTHA WICKETT / Apr. 25, 2019 9:50 a.m. / NEWS

Salmon Arm council is not about to zoom into the role of regulating drones, but it would like more information made available to the public.

Faced with complaints about drones on the foreshore from the Shuswap Naturalist Club and the Salmon Arm Bay Nature Enhancement Society (SABNES), council had asked city staff in February to investigate the cost of signage.

“Incidents have been reported to us at both Peter Jannink Park and the wharf where wildlife, including Western Grebes and ospreys, were being disturbed. In one case a drone was hovering over the osprey nest at the wharf, greatly distressing the osprey in the nest,” stated a letter from the two groups.

Council also sent a resolution to SILGA, the Southern Interior Local Government Association, in hopes it would be endorsed and sent to the Union of BC Municipalities for the fall convention. The resolution asked that the federal and provincial governments collaborate to provide clarity and options for local governments in restricting the use of drones in local sensitive ecological areas.

The city's Rob Niewenhuizen presented council with a report on drones at its April 23 meeting.

He said Transport Canada regulates drones or UAVs (unmanned aerial vehicles) as they're commonly called. If under 35 kg or 77 lbs, they're considered recreational. If over that, they require an extensive licence, almost like a pilot's.

Operators of larger drones should file a flight record if they're going to be near Salmon Arm's airport, he said.

The Transport Canada website has an incident report, where the public can submit a complaint to investigate.

"Rules are still a little vague as far as the responsibilities for municipalities," Niewenhuizen noted, adding that Transport Canada's role as regulator doesn't preclude a municipality from regulating.

The city doesn't have control over the lake, however, as that's a provincial matter.

"In summary, essentially, if a UAV or drone is being flown improperly..., you can report it through Transport Canada, the RCMP or, if interacting with wildlife, through the RAPP (Report all Poachers and Polluters) line."

The RAPP line deals with human/wildlife conflicts.

He said if the city puts signs up, there's no way to provide enforcement without a bylaw. And if the city creates a bylaw, it will have to enforce it.

Coun. Tim Lavery asked several questions, including, if there's a complaint, how do you know which drone it was and who was flying it.

Niewenhuizen noted that a drone flying at the foreshore may have been flying from the Prestige hotel, which is private property so can't be regulated. However, if a drone is bothering wildlife, a call to the RAPP line would be in order.

Mayor Alan Harrison said a person at Lakeside Manor asked him if there could be anything done about the drones that have come by her window.

Harrison said he'd like informational signage to be considered, not signage requiring a bylaw.

Council decided to wait to see what SILGA will do with the city's resolution. Niewenhuizen also pointed out that new Transport Canada rules will be coming into effect on June 1 of this year.

Subject: RCMP over aggressive with smug attitudes

I write to you today to inform your city council of the over aggressive actions of your local RCMP... Salmon Arm is getting the name "Ticket city".

I have heard of this issue many times over the last year especially. I do all my shopping in Salmon Arm for everything from groceries to clothes ect. Ect.

But after dealing with your local RCMP twice. I will never shop there again. Both times have been absolutely brutal. The officers attitudes were out rite smug and ignorant. 24 years I have never once recieved a ticket I was squeaky clean. Iam a tax payer and a good citizen. The fines were max they wouldn't let me ask or question them. They were rude and disrespectful to me. I know and feel all tickets were questionable. And I will fight them.

Why should your city hall care about this.

I will tell you that iam a family of six my food bill is 500 to 700\$ monthly. Not including hair cuts, clothes, fast food ect ect. That's a good 12thousand plus dollars a year we spend in your town..

NOT ANYMORE!

I am always for the law! But it is apparent to me and alot of local citizens that their aggressive actions and the shockingly bad attitudes are driving local citizens from Salmon Arm.

I know more people then I can count on my fingers that will not go to Salmon Arm because of this. Start adding up the money your community is missing out on is staggering.

Respectively Don

Subject:	Downtown Improvement Association / Downtown Business

Body

Hello I would like to withdraw my tax support for this organization. I have been in business in Salmon Arm downtown since 1999 and I am very frustrated with this organization. I have been on their Board, and gave up in frustration after several years. The members of the Board are not seasoned retailers and have minimal knowledge of retail. . The organization continually promotes events and ideas that are in competition with the retailers eg, late night shopping for Christmas is pitted against the Holiday Train, Solstice Celebration/street closures, dinner and a movie passes. . Halloween costs each retailer in candy (picked up by mothers with babys in carriages with soothers - clearly candy is not for the baby). Staff lose pay, stores lose income as they must close as no customers because no parking, street closures, etc. One can argue its goodwill, but it does not encourage shoppers when buses bring people in from outlying areas. . Christmas late night shopping used to be for a full week before Christmas, then it was December Tuesdays late til 8, with dinner and a movie an option then this year and changed to one night. . They do not promote or advise merchants of groups coming to town so we can be prepared by being open for the tourists (at one time they did) . They send out surveys but do not ask the land owners who actually pay for the DIA through their taxes. Asking a clerk to fill out a form is not the way to gather appropriate information - basically decisions and information should be sought from managers/owners/landholders. . Christmas decorations have

seriously declined in quality for the past several years - and the DIA claims no budget. DIA tells us we get to purchase our own trees! In 1999 and 2000 the street trees were decorated with lights and new lamp-standards were put in on Hudson. When will it be Lakeshore Drive's turn for a remake? . We are paying \$over \$80,000 in salaries, and it is not benefiting the retailers. . Retailers are moving away to the malls and yet the DIA has not done exit interviews with them. Perhaps it is the lack of downtown promotion of the part of the DIA that has caused this?

Would you like a response:

Yes

Mayor and Council

City of Salmon Arm

Lower Income Housing.

I was very pleased to see the announcement of a proposal to construct units near the DAC on land which has been vacant and for sale for many years. It seems to me that there are a couple of areas where the City might be able to take more control of the planning, development, ownership and management of similar projects. My own preference is for Co-operative Housing. My daughter has been in a Co-op in downtown Victoria for about 12 years with a mix of market, middle, and lower income owners with a long waiting list. They have paid off their CMHC mortgage and are discussing the next phase either redevelop or substantial renovation.

1. The City of Salmon Arm Investment and Development Corporation would be the owner/ manager unless the co-op model is chosen. All members of council will be ex officio directors + 5 from the community. This would take care of the acquisition problem. The City owns various parcels and could acquire more.
2. SASCU becomes the local financier by issuing Salmon Arm Savings Bonds at approximately ½ a percent above Bank of Canada prime rate for 1, 5 or longer terms. They could be redeemed on death. Over the last 10 years, since the 2008 financial debacle, my savings have essentially stayed about even or suffered a slight loss with management fees. It looks like low interest rates are here for a while yet. I think a local issue of such bonds would be very attractive to senior investors and would provide funding for these projects by way of a mortgage loan or loan guarantee for the development stage.

The City would then become an owner developer with adequate funding. Control would be local. It would open up a wider variety of choices to provide lower income housing for our citizens. I am not sure whether the LGA permits this but it oughta.

yours truly, Arthur Channer.

A handwritten signature in black ink, appearing to read "Arthur Channer". The signature is fluid and cursive, with a large initial "A" and "C".

Subject: Cats

Good Morning

There was a thread going on FACEBOOK - Shuswap Everything Friendly Goes, last night regarding roaming cats. There were approximately 175 comments regarding this problem. I think the time has come to put in a law regarding loose cats. I have lived in my home for 25 years and every spring I have to clean up cat feces from my garden and flower boxes before I can even think about planting. I cannot even tell you how much it has cost me to change out the soil for my garden!

I have attached Calgary's bylaw.

<https://www.calgary.ca/CSPS/ABS/Pages/Bylaws-by-topic/Cats.aspx>

Thank you.
Debbie Beadle
Salmon Arm, BC

Heritage Update

To keep you informed about current heritage news and events, we bring you our Heritage Update. We hope you will find these periodic newsletters both useful and entertaining.

President's Message: *Norma Harisch*

As another season begins, everyone involved with the R.J. Haney Heritage Village and Museum is excited to welcome visitors to this very popular destination. Our efforts over the last few years have been dedicated to completing the Montebello Museum building and the 9 dioramas. That work continues with completion of the administration office and more dioramas ongoing. The Board, staff, and Advisory committee have been working over the winter on plans for the conversion of the former museum building into the new restaurant, Sprig of Heather. Bernd Hermanski has completed the drawings for the building renovation, and Canadian Restaurant Supply has prepared drawings for our new commercial kitchen, which will be a much more efficient space for our professional and volunteer kitchen workers. The new restaurant will provide inside seating for up to 80 people with additional seating on the deck and patio. This will be a great addition to our dinner theatre and will provide an elegant venue for wedding receptions and other events.

The application for a building permit has been submitted to the city planning department, and we are confident work will begin very soon. This is a large project, and we are seeking financial contributions from the community to help us get this much-needed facility open as soon as possible.

The second part of this phase of our development is the conversion of the current Tea Room into the new Indoor-Outdoor Children's Museum and Discovery Centre. Plans from Cuyler Page have been approved by the board, and Cuyler is already working on some of the pieces for the museum. A sample of what will be in the new center will be installed in the museum gallery this season, so visitors will get a taste of what is to come. We will begin work on some of the outdoor components this spring as well. This is a very exciting project with a budget of approximately \$80,000, and we are seeking support from the community and applying for grants from various organizations so work can start as soon as possible.

We are always looking for volunteers with special skills to assist with the various ongoing projects at the Village; if you would like to get involved, call our volunteer coordinator Tara Watson at 250-832-5243.

If you would like to donate to these exciting projects, please contact General Manager Susan Mackie at the Village.

Damage Control

Something didn't feel right. Volunteers Nancy Tait, Lise Ouimet, and I felt and heard it. A loud hiss and a relentless noise. Was it just the geothermal unit kicking in?

I ran out of the vault. There was water in the hall. I unlocked the mechanical room. Water was spraying everywhere. Where was it coming from? Where was the shut off valve?

I yelled upstairs for help. "There's a flood!"

General Manager Susan Mackie was in a meeting.

"Call Ted," she yelled back.

Of course. Who else would you call in an emergency? The self-proclaimed Keeper of the Park naturally.

"I'll be right there," was Ted's response.

Before Ted could get his shoes on, the pipe and water pressure valve separated from the water source. The pipe shot water at 140 psi straight at one of the geothermal units.

By this time Susan had called 911, City Public Works, her husband Bruce Mackie, Bill Laird, Rick Semenzin, and anyone else she could think of who might help.

My crew started on damage control. We checked on the collection, moving delicate artefacts higher on their shelves. Then we turned our attention to the workroom and its computers. The flood had reached the outer walls! With water swirling about, Lise picked up the power bars out of water. I lifted the computers. Lise was shocked once.

Susan realized we were not safe and made an executive call. We vacated the lower floor to higher ground, leaving all exterior doors open.

The Public Works crew arrived. They located the building's shut-off valve under ice and snow, in the roadway, turned off the water and left. Their job was done.

Susan arranged for the KR Restoration crew and scheduled meetings. The two insurers sent their adjusters. Excel Contractors got their plumber out of retirement. Everyone checked their policies.

How does the story end? Continued on page 2

The Salmon Arm Museum and Heritage Association is grateful to the Secwepemc First Nation, on whose traditional territory we live, work, and play.

From The Curator:

A recent visit from a Senior Program Advisor with the Department of Canadian Heritage Museum Assistance Programme had the women at the Salmon Arm Museum intrigued. Michael Smith was making his rounds to museums in the interior. He was from Vancouver. The big city. I warned him about the snow and told him boots were a good idea. He understood. He had gone to school in Ottawa and was born in northern B.C.

How would we look? SAMHA's crews had installed the shelving purchased when Target closed its doors in 2015. We worked all summer and fall packing up the museum collections. We had systems in place to track things. We had also moved and unpacked thousands of artefacts, cleaned the grime, recorded new locations, and recycled six pick up loads of cardboard. Our MAP-funded project was coming to an end.

Over the winter Breanne Malo had been hired on a Get Youth Working project. Breanne was a recent grad who had gone to school in Wales where she studied Anthropology.

Encouraged by her father to make a cold call, she showed up one day at the museum, resume in hand. She was given a tour of the collections areas. I started thinking. I really needed help. I hoped that there was money left in the budget for a "student of life." I asked Breanne if she would be interested in working with the artefacts if I could get approval.

It turned out that Get Youth Working had funding left in its budget and so did Treasurer Gary Cruikshank. We were set! Breanne was given the title Registrar of Collections and she took to the work like a duck to water. Maybe it was in the genes. Breanne's mom is a retired school librarian. Breanne likes order.

By the time Michael made his appearance, Breanne had changed the location fields on 24,078 items. With Board approval we had de-accessioned 1,023 artefacts. Breanne and my staff had solved 400 problems. We had boxes and boxes of books that had been processed, ready for recycling. There were more boxes of books that were going to be presented to the next board meeting. Michael seemed pleased.

No museum can afford to collect indiscriminately. We had culled the collection. Books with settler's names in them were kept. Books with missing front and back covers were not. School books from other provinces were de-accessioned. It seemed right that Michael was impressed. Although the work was not technically part of the project or funded by his program, he knew that if we didn't get a handle on our collecting, we would outgrow our new space too quickly. He asked to take photos of our boxes of books.

I showed Michael the vault where we keep the most valuable archival material. It is six sided and feels like a bunker. I pointed to our homemade system for hanging art. It was something I invented from three-foot wire shelving that we were not going to use. Former Board Member Ian Tait mounted wood 1 x 2s on the drywall along and painted the boards to match the walls. Ian screwed the shelves into the boards. When Ian was done, the project looked very much like something a museum or art gallery could purchase from Carr McLean in Toronto. High end racks, just like in the big museums.

We toured through the artefact storage area. Breanne's inventory was taped to each shelf, problems highlighted. There was still work to do.

We know Michael went away impressed. His next stop was Revelstoke, where he stopped to see another MAP-funded project. He showed my colleague Cathy English photos of our racks. I think we passed inspection but Michael came just time. The books have gone to recycling.

Thank you for the visit Michael.

Deborah Chapman, Curator

Damage Control continued from page 1

The volunteers left, cold and wet. Trucks with water vacuums, dehumidifiers and fans arrived.

We congratulated each other. Everything we had moved from the old museum had been unpacked and shelved, in order, and organized. The collection was dry. No artefacts were lost. The elevated archives vault did not flood. The Salmon Arm Museum had survived both an earthquake and a flood in less than a week.

Join us and celebrate the arrival of spring at the 10th Annual High Tea at R.J. Haney Heritage Village & Museum on Sunday, May 26 from 1:00 pm – 3:00 pm. Come and enjoy an afternoon of antics, music, entertainment, tea and treats with a playful twist - all set in the beautiful Heritage Village.

Marjorie's Tea Room has prepared a special High Tea menu with a selection of freshly prepared finger sandwiches, scones and a variety of homemade cakes and treats all paired with a wide range of specialty teas.

Ticket holders will enjoy a special fashion show “Every Dress Has a Story” featuring wedding dresses and their stories, MC is Patrick Ryley from EZ Rock Radio. Also, entertaining at High Tea is award-winning Vancouver entertainer, Christine Pilgrim and live music from local artist, Peter Clark.

Come dressed up for High Tea in your best Edwardian Garb. Prizes for best dressed and best hat will be awarded.

Tickets for High Tea are \$25.00 and include your admission to the Village. Tickets can be purchased by calling 250-832-5243 or visit R.J. Haney Heritage Village and Museum located at 751 – Highway 97 B or your local Askew’s Foods. Seating is limited, don't be disappointed, purchase your tickets early for this popular spring event!

The Village is a beautiful place that offers a unique and authentic experience for visitors to come and explore our rich Heritage. Set on 40 acres of the prettiest farmland in the Shuswap, the Heritage Village, features 24 relocated and replicated buildings, including the original 1910 Haney House. There are over 30 exhibits, which tell the stories of Salmon Arm’s history and the Shuswap, to discover on your next visit!

April 18, 2019

Attention: Mayor Alan Harrison
Robert Niewenhuizen

RE: Request temporary road closure on July 1st (Canada Day) 5th Ave SW

Salmon Arm Children's Festival Society is requesting the City of Salmon Arm to allow us to temporary close 5th Ave SW between 3rd Street SW and 5th Street SW on July 1st 2019 from 9:00am-3:00pm to accommodate the Canada Day Children's Festival activities and to ensure safety of all attendees. Thank you for considering our request. Our Society feels that being our request is on July 1st and it is a Monday this year there would be no interruption or disruption to surrounding businesses. The Society obtains general liability insurance coverage and lists the City of Salmon Arm as "additional insured". If you have any questions please call Karen @ 250-832-6192. Thank you

RE: Temporary Campground

Dear Mr. Pearson:

On behalf of the Salmon Arm Folk Music Society and the Roots and Blues Festival, I would like to request the use of the southeast section of Blackburn park for the use as a volunteer and over-flow campground during the 27th Annual Roots and Blues Festival.

The dates we would require the fields are August 13^h to 23rd, 2019 to allow for set-up and a proper amount of time to restore the area to its pre-event condition. We are truly grateful for your support.

If the Council approves the use of this property is it possible to set the terms of the approval over a 3-5 cycle to reduce the administrative burden on the SAFMS staff would be appreciated

Thank you,

From: Salmon Arm Chamber [mailto:admin@sachamber.bc.ca]
Sent: Friday, May 03, 2019 9:30 AM
To: Caylee Simmons
Subject: Back Country Closure Proposals - What It Means to Our Economy

[View this email in your browser](#)

MEDIA RELEASE - MAY 3, 2019
**4 RURAL CHAMBERS OF COMMERCE WORKING TOGETHER TO ADDRESS
BACK COUNTRY CLOSURES**

The public consultation deadline of May 3rd has now been adjusted to May 31st. Immediate action is needed to ensure a proper process of science, data, research and economic impact studies and additional public consultations are completed in advance of legislation.

The Provincial and Federal Governments have presented a draft document that could **potentially close down several backcountry areas in rural British Columbia. If these closures on backcountry rural areas occurs, whole communities will experience significant economic loss and many community members will be displaced as a result of lost employment in the industries of tourism, forestry and energy primarily.**

The Salmon Arm, Sicamous & District, South Shuswap and Revelstoke Chambers of Commerce have come together as the representatives of business in their respective communities to ensure business owners and community members are made aware and educated on this issue.

Chambers have been active in the forefront on this issue for many years including the development of a 2017 policy on "Species at Risk: Boreal (Woodland) Caribou". This policy calls for the Provincial Government to complete a socio-economic impact assessment, ensure stakeholder interests are considered and to implement a multi-species approach to better improve wildlife and land management programs. The BC Chamber has formed a coalition and will continue to provide advocacy through the updated Species at Risk Resolution submitted earlier this year.

There is grave concern regarding the protection of the region's current and future economic situation, the health of our environment and the protection of our wildlife.

Rural British Columbians need to be aware of the impact severity of this proposed legislation. Towns and cities that do not feel they will be directly impacted by the rural back country closures need to understand that our neighbouring community members will lose jobs and their ability to contribute to our economy by way of tourism and consumer purchasing will come to an immediate halt. They will not be travelling to visit other BC communities, purchasing merchandise, staying in hotels or dining at restaurants.

This long-time issue is at a crucial juncture and the threat is immediate. Residents and business owners are urged to take action by becoming informed and by having their voices heard. Included below is a link where one can get more information, complete an online petition or print and sign a petition. Once signed, it can be dropped off to a local Chamber of Commerce office.

The **public consultation deadline** of May 3rd has now been adjusted to **May 31st**. Immediate action is needed to ensure a proper process of science, data, research and economic impact studies and additional public consultations are completed in advance of legislation.

City of Salmon Arm
Mayor Harrison and Council
PO Box 40
Salmon Arm BC V1E4N2

Dear Mayor Harrison and Council

Re: Shuswap Food Hub Feasibility Study – Receipt of Project Funds

Earlier this year, following conversations with representatives from the BC Ministry of Agriculture, Salmon Arm Economic Development Society (SAEDS) submitted a request for \$35,000 in financial support for a Food Hub Feasibility Study. This proposal was recently approved; however, the Ministry has requested that the City of Salmon Arm act as the recipient for the funds, flowing the funds through to SAEDS, in order to comply with their operational guidelines for direct award project funding.

Project Background: SAEDS has identified a gap in the local food supply chain, specifically in available community infrastructure and resources to support agri-food production. This study will assess the needs of local food producers across all sub-sectors of agriculture in the areas of processing, research, packaging, storage, distribution and sales of local food. Further, the feasibility study will research and make recommendations on best practice business models, as well as made in Salmon Arm partnership solutions, designed to ensure self-sustaining operations and the highest return on investment back to the community.

Funding from the BC Ministry of Agriculture will support costs associated with redirecting in-house staff time towards this project, required consulting fees and all other costs associated with the development and delivery of the Shuswap Food Hub Feasibility Study. As with other similar programs, SAEDS is prepared to enter into an agreement with the City of Salmon Arm specifying that our organization will be responsible for all financial and administrative processes related to the completion of the Food Hub Feasibility Study.

SAEDS appreciates Council's consideration to supporting the receipt of the project funds for the feasibility study and is pleased to provide any further information required.

Sincerely,

Lana Fitt

Dear Friends,

RE: Salmon Arm Arts Centre Requests City Council Representation

The Shuswap District Arts Council is requesting Salmon Arm City Council representation on its board of directors.

The Arts Council is experiencing an increase in the demand to many of its programs, especially the education program. We are looking at opportunities to physically expand to accommodate more school tour activities. In addition, the historical community art collection, of which the Arts Council is the caretaker, is in need of a climate controlled storage space to prevent damage to the valuable pieces. There has been discussion on the benefits of another art gallery exhibition space with the specific purpose of showcasing an ever-rotating display of the works from the collection. There is always interest in seeing these works, now numbering over 170, and the current art gallery schedule has a limited opportunity to show them. For the above reasons, the Arts Council is exploring the potential of building a second storey on the back addition portion of the Salmon Arm Arts Centre.

Having a member of City Council on our board of directors would be an important step in these beginning stages of exploration as we discuss options, plans, and funding opportunities for the expansion of the Arts Centre to better meet the growing needs within the community.

Sincerely,

Welcome!

Crown Agencies and Board Resourcing Office is responsible for:

- overseeing the governance planning and reporting cycle including Crown agency mandate letters; service plans and annual service plan reports for ministries and Crowns.
- ensuring that the application process for provincial appointment is inclusive and transparent.
- establishing guidelines for all provincial appointments to agencies, boards and commissions (ABCs)
- ensuring that appointees receive appropriate orientation and ongoing professional development with respect to agency governance issues

The provincial government makes appointments to over 240 ABCs. These include: authorities, boards, commissions, crown agencies, corporations and councils.

People with applicable skills from all regions of our province are invited to help renew B.C.'s public sector boards. The Province's goal is strong boards that reflect the diversity of British Columbia for effective and citizen-centred governance

Women, visible minorities, Indigenous Peoples, persons with disabilities, persons of diverse sexual orientation, gender identity or expression (LGBTQ2S+), and others who may contribute to diversity in public sector board appointments are encouraged to put their names forward for appointments.

Consideration will be given to individuals with a broad range of backgrounds in community, labour and business environments. The selection process will recognize lived experience and volunteer roles as well as paid employment and academic achievements.

April 30, 2019

Erin Jackson
Director of Corporate Services
City of Salmon Arm
500 – 2 Avenue NE
Box 40, Salmon Arm BC, V1E 4N2

Dear Erin Jackson:

Thank you for your email of February 28, 2019, regarding wait times at Shuswap Outpatient Laboratory(SOL), and the concerns of your city resident, Sherry Mitchell. I am responding on behalf of the Honourable Adrian Dix, Minister of Health.

I was sorry to read that Ms. Mitchell is experiencing challenges accessing laboratory services in the community. I appreciate the time that both she and the Salmon Arm City Council have taken to share these concerns with the Ministry of Health (the Ministry).

Because the health authorities are responsible for planning and delivering the full range of health services in their regions, our office reached out to Interior Health (IH) in order to gain more information regarding Ms. Mitchell's concerns. IH reported that they are extending hours and increasing staffing levels at SOL to address the increase in demand for laboratory services and improve laboratory service wait times. While the exact times are not yet confirmed, the laboratory will reportedly open earlier. IH also reported that they are currently in the process of hiring another full-time Medical Laboratory Assistant for SOL and expect to have completed this hiring process by the end of April 2019.

There are also plans to move the collection station to another location in the same building. The new location will accommodate an additional chair, which will increase the total collection chairs from five to six. This move is planned for late 2019 or early 2020. You may also be interested to know that IH is currently analyzing the wait times across the region to inquire about potential corrective actions.

If Ms. Mitchell has further questions or concerns regarding SOL, she is encouraged to ask to speak with the laboratory supervisor on shift. If the concerns are not resolved locally, she may wish to contact the IH's Patient Care Quality Office (PCQO). Each health authority has a PCQO that was set up to receive care quality concerns and support patients and community

.../2

members in navigating the health system. Staff in the PCQOs work with patients, clients and their families to review concerns and ensure they are connected with the best resources in the health authority to answer their questions and find an appropriate resolution. IH's PCQO can be reached at 1-877-442-2001 or patient.concerns@interiorhealth.ca.

Thank you for writing to share Ms. Mitchell's experience and concerns with government. I appreciate the opportunity to respond, and hope that you find the above information helpful.

Sincerely,

A handwritten signature in black ink, appearing to read 'Donna Ward', with a stylized, cursive script.

BRITISH
COLUMBIA

May 7, 2019

Ref: 246050

Dear Local Governments:

As you are aware, housing availability and affordability are some of the biggest issues facing British Columbians today. That is why I am writing to let you know about exciting partnership opportunities that can be used to increase the supply of affordable housing in your community.

With the 30-point housing plan, the Government of British Columbia is making the largest investment in housing affordability in B.C.'s history—approximately \$7 billion over 10 years—through the **Building BC** funds. In the first year of this plan, we have already made significant investments in communities across British Columbia:

- **Building BC: Community Housing Fund (CHF)** will provide close to \$1.9 billion over 10 years to develop 14,350 units of mixed income, affordable rental housing for independent families and seniors. The new homes are designed to address the need for affordable housing across a range of income levels, in response to a housing crisis that has made housing unaffordable for even middle-class families. *Currently, more than 4,900 of these new homes have been approved in 42 communities. (See map: <https://www.bchousing.org/partner-services/Building-BC/community-housing-fund>)*
- **Building BC: Indigenous Housing Fund (IHF)** is a \$550 million investment over the next 10 years to build and operate 1,750 new social housing units for Indigenous families and seniors. *In Fall 2018, we announced 1,100 new affordable homes for indigenous peoples in 26 communities across B.C. (See news release for project list: <https://www.bchousing.org/news?newsId=1479152910395>)*
- **Building BC: Women's Transition Housing Fund (WTF)** is investing \$734 million over 10 years for 1,500 units of transition and second-stage housing to help women and children get out of violent and abusive situations and rebuild their lives. *More than 280 of these new spaces have been approved for 12 communities.*

.../2

- **Building BC: Supportive Housing Fund (SHF)**, an investment of \$1.2 billion over 10 years, will deliver 2,500 new homes with 24/7 support services for people who are experiencing homelessness or who are at risk of homelessness. This fund builds on the **Rapid Response to Homelessness initiative** (now fully subscribed) in which 2,000 homes with supports are currently being built in 22 communities across the province, with 1,285 units already opened.
- **Building BC: Capital Renewal Fund (CRF)** is a \$1.1 billion investment over the next 10 years to make existing B.C. social housing stock more livable, energy-efficient, and safer. This investment will make dramatic improvements to the existing social housing stock in the province and benefit thousands of British Columbians.

Many of these housing projects are underway, but I wanted to make sure you knew about upcoming opportunities to apply for future funding. BC Housing is interested in partnering with municipalities, non-profit housing providers, and community groups to create more innovative and sustainable housing solutions through the following:

- **Future RFP** - BC Housing will be issuing a second formal Request for Proposals for the *Community Housing Fund* and the *Indigenous Housing Fund* in 2020. We encourage groups interested in submitting proposals to start their planning early, to ensure their projects are ready when applications open. Interested organizations can visit bchousing.org/partner-services/funding-opportunities-for-housing-providers to learn more about these funding streams and their requirements.
- **Ongoing Opportunities** - BC Housing welcomes discussions with partners interested in developing new housing through the *Supportive Housing Fund* and/or the *Women's Transition Housing Fund*. Visit bchousing.org/partner-services/Building-BC to learn more or contact your local Director of Regional Development (contact list below).
- **Major Repairs for Existing Social Housing** - Funding is available for non-profit housing providers or housing co-operatives to support capital projects that maintain or benefit an existing social housing building's condition or improve the building's seismic or fire safety, as well as for projects focused on energy performance. Visit bchousing.org/partner-services/asset-management-redevelopment/capital-planning-repairs to learn more about eligibility criteria and how to apply, or speak with the local Regional Non-Profit Portfolio Manager.
- **The HousingHub** is a new division within BC Housing, and was established to seek innovative partnerships with local housing organizations, community land trusts, Indigenous groups, faith-based groups, charities, the development community, financial institutions and other industries to create affordable rental housing and homeownership options for middle-income British Columbians. As a centre for housing expertise and collaboration, affordable housing will be developed through the HousingHub either through new construction or through the redevelopment of existing sites. Partners bring suitable land, equity and/or the catalyst for development. The HousingHub can provide:
 - Expertise to provide advice on assisting the group in the planning and development process
 - Access to pre-development funding
 - Low-cost financing
 - Project coordination advice
 - A place for organizations to collaborate

Learn more: www.bchousing.org/partner-services/housinghub

There are many ways that municipalities can help to partner with BC Housing, such as providing city-owned land or waving Development Costs Charges, as a few examples. If you have an identified housing need in your community, we are hoping that you will help share some of these opportunities with interested community groups in your area. If you are interested in providing housing but are unsure of how to connect with a non-profit, BC Housing or the BC Non-Profit Housing Association can help you identify housing non-profits that operate in your region.

While BC Housing will be promoting these opportunities, we are hoping that you will also reach out to encourage key stakeholders in your community to apply. We have included a *Building BC* factsheet to help you promote these opportunities.

Please have interested key stakeholders in your community contact their local Director of Regional Development for more information:

Region	Director of Regional Development	Email
Interior Region	Danna Locke	dlocke@bchousing.org
Northern Region	Amy Wong	awong@bchousing.org
Vancouver Coastal & Fraser Region	Naomi Brunemeyer	nbrunemeyer@bchousing.org
	James Forsyth	jforsyth@bchousing.org
Vancouver Island	Malcolm McNaughton	mmcnaughton@bchousing.org
HousingHub	Raymond Kwong	rkwong@bchousing.org

Thank you in advance for your support in helping to bring more affordable housing to your community.

Sincerely,

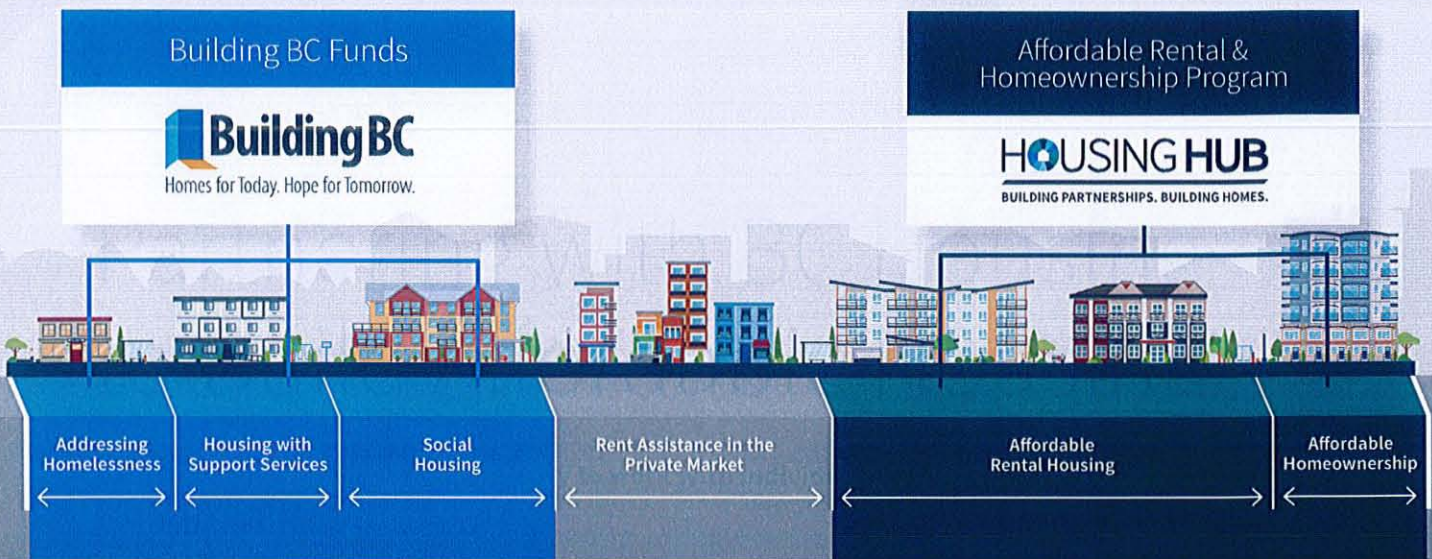

Selina Robinson
Minister

Enclosure

Partnering with BC Housing to Build Affordable Housing

BC Housing welcomes the opportunity to work with individuals and organizations to create affordable housing solutions. We work in partnership with non-profit sectors and private sectors, community and Indigenous groups, provincial health authorities, ministries and other levels of government. As a partner, we build and facilitate community and business partnerships to find innovative solutions to housing.

Building BC Funds

Supportive Housing Fund

\$1.2 billion

An investment of **\$1.2 billion over 10 years to deliver 2,500 new homes** with 24/7 support services for people who are experiencing homelessness or who are at risk of homelessness.

-  Adults over 19 who are homeless or at risk of homelessness.
-  Affordable rental housing with onsite support services.
-  Non-profit housing providers that are interested in providing property management and support services.

Ongoing opportunities

Community Housing Fund

\$1.9 billion

This investment will provide close to **\$1.9 billion over 10 years to develop 14,350 units** of mixed income, affordable rental housing for independent families and seniors.

-  Families and seniors capable of living independently, without on-site support.
-  Affordable rental housing that includes: 30% affordable housing (moderate income), 50% rent geared to income (housing income limit), and 20% deep subsidy.
-  Non-profit housing providers or for-profit firms that partner with non-profit societies who are interested in developing and operating new rental units.

Future Proposal Call

Women's Transition Housing Fund

\$734 million

The Province is investing **\$734 million over the next 10 years to build and operate 1,500 new units** to support women and children at risk of violence.

-  Women and their children who are at risk of violence and/or who have experienced violence.
-  There are four typical models: safe home, transition house, second stage housing, and permanent housing.
-  Non-profit service providers who are interested in developing and operating new rental housing.

Ongoing opportunities

Indigenous Housing Fund

\$550 million

The Province is investing **\$550 million over the next 10 years to build and operate 1,750 new social housing units** for indigenous families and seniors.

-  Indigenous families, seniors, individuals, and persons with a disability.
-  Affordable rental housing.
-  Indigenous non-profit housing providers, First Nations, Metis Nation BC, non-profits, and developers who want to partner with Indigenous organizations and First Nations.

Future Proposal Call

Building New Affordable Housing in BC

The *HousingHub* was developed to increase the supply of affordable housing for British Columbians, and is one of several new provincial initiatives introduced in *Homes for BC*: A 30-Point Plan for Housing Affordability in British Columbia.

The *HousingHub* is a division within BC Housing, and was established to seek innovative partnerships with local housing organizations, community land trusts, Indigenous groups, faith-based groups, charities, the development community, financial institutions and other industries to create affordable rental housing and homeownership options for middle-income British Columbians.

As a centre for housing expertise and collaboration, the *HousingHub* develops affordable housing through new construction, or through the redevelopment of existing sites.

Increasing the Housing Supply

The *HousingHub* seeks partnerships with levels of government to:

- Increase the supply of affordable rental housing
- Improve the ability of renters to move into homeownership, thus freeing up rental stock

HOUSING HUB
BUILDING PARTNERSHIPS. BUILDING HOMES.

- Middle income British Columbians, households with **average incomes between \$70,000-\$150,000**, depending on the community.
- Affordable rental housing at or below market rate, affordable homeownership.
- Non-profits and private developers, faith groups, property owners, federal and local governments, and Indigenous partners.

Adams Lake Indian Band
Box 588
6453 Hillcrest Road
Chase, BC V0E 1M0

Dear Chief and Council,

Re: Social Impact Advisory Committee

I am writing to confirm that the Terms of Reference for the Social Impact Advisory Committee provide that membership of the Committee include a representative from the Adams Lake Indian Band. We would like to reiterate our invitation to have the ALIB appoint a representative to become a part of this Committee. We are requesting that you provide the City with the name and contact information of an appointee and if there is sufficient interest, it would be beneficial if an alternate could also be named.

The purpose of the Committee is to assist Council in an advisory capacity regarding social impacts identified in our community in an effort to maintain and improve the social well being of all citizens.

The Committee feels that it would be of great benefit to have a member of the ALIB attend and participate in the meetings as the knowledge and resources offered by the ALIB is of value to our community.

Thank you for your consideration of this invitation. If you have any questions please contact the undersigned at 250 803-4029 or by email at ejackson@salmonarm.ca.

We look forward to hearing from you.

Yours truly,

Erin Jackson
Director of Corporate Services

Subject: re: Snares in Salmon Arm

Good afternoon Mayor Harrison and Council,

The Fur-Bearers, a wildlife non-profit based in BC, has followed the story of the snare that killed a beloved family pet in your community closely. We read that Mr. Zakus is preparing a petition to present to Council and thought it may be helpful to provide some context and evidence regarding how snares are used, the risks to pets, and the damage they cause in British Columbia. Please find attached our letter, as well as a bylaw from the municipality of Gibsons (and a letter of support from the BC SPCA for their bylaw).

We look forward to hearing your response to this information and Mr. Zakus' deputation, and will stand ready to assist your team in whatever manner is most appropriate.

Warmest regards,

-Michael Howie

Re: Snares in the community

Dear Mayor Harrison and Council,

We heard with great sadness the tragic story of how Molly, a healthy and happy family member of Jeff Zakus, lost her life to an inhumane neck snare.

Mr. Zakus will best tell his story to you, and we believe that as compassionate leaders of your community, you will listen. We would like to provide some ancillary facts that can help inform your decision regarding the use of dangerous traps in Salmon Arm.

At current time there are no provincial requirements for trappers to post warning signs of traps in an area regardless of how densely populated it is, or how frequently recreational areas are used by families, pet owners, and other outdoor enthusiasts. There are no required setbacks from publicly accessible trails or property lines – only that traps cannot be set within 200 metres of a dwelling. There is no required consent from municipalities for traps to be used on private property regardless of property boundaries and access points. We are aware that the government of British Columbia estimates approximately eight pets are reported maimed or killed by traps per year in the province (evidence found in a briefing note through Access to Information and Privacy Act, and only includes those directly reported).

The latest research, conducted primarily by trapper and biologist Dr. Gilbert Proulx, indicates that killing neck snares cannot be used humanely and can leave target animals – let alone non-target animals – suffering for hours. The injuries sustained are horrific and can include what is known as “jelly head”, a phenomenon in which blood vessels may burst internally causing a visible and grotesque swelling of the animals’ head. Like most traps, snares cannot discriminate between target species and as such present a risk to any wildlife large enough to engage the restricting wire loop. Death can be slow and painful.

Additionally, killing neck snares are not included in the Agreement on International Humane Trapping Standards (AIHTS), a trade agreement to which Canada is a signatory.

While a by-law may not address poaching, it does give the municipality the tools to prevent unnecessary suffering as well as education to those attempting to “manage” wildlife on their own.

The Conservation Officer Service has noted publicly that municipalities have the ability to create local by-laws prohibiting traps in their communities. To support our position and the request made by Mr. Zakus we have attached a sample by-law from Gibsons, British Columbia, that addresses such issues, as well as links to the science and anecdotal information regarding the cruelty of traps.

We look forward to reading your response and will happily work with Council, staff, and community members to protect those who are most vulnerable.

Warmest regards,

Michael Howie
Director of Advocacy and Communications

Brak, J. (2019, March 27). Salmon Arm man loses dog to coyote snare within city limits. *Salmon Arm Observer*. Retrieved April 24, 2019, from <https://www.saobserver.net/news/salmon-arm-man-loses-dog-to-coyote-snare-within-city-limits/>

"Setting traps on private property is legal in B.C., with regulations stating snares cannot be located within 200m of a private residence and must be set by an approved trapper. Because of the 200m restriction [conservation officer Tanner] Beck says snares are not common within city limits, but the deep bush behind this particular property allowed for legal snare use. Municipalities can prohibit trapping through bylaws, but Salmon Arm has no such bylaw."

SUBJECT: BODY GRIPPING TRAPS	SECTION: PARKS NUMBER: 6.8 PAGE 1 OF 1
ADOPTED: July 19th, 2011 REVISED:	RESOLUTION NO.:

A. Purpose

1. Conservation Officers are exempt from Trapping of Wildlife regulation under Section 86 of the Wildlife Act:
Officers exempted
86. The offence provisions of this Act and the regulations and section 9 of the Firearm Act do not apply to an officer engaged in the performance of his or her duties.
2. For Public Safety reasons Conservation Officers may deem it necessary to use "Body Gripping" traps for control of dangerous animals within the boundaries of the Town of Gibsons.
3. The Town of Gibsons Ban of Body Gripping Traps Bylaw No. 1147, 2011 states that:
No person shall use a body-gripping trap or device within the municipality.
4. The Provincial Wildlife Act will take priority over the Town of Gibsons bylaw in the event that the provincial employees deem it necessary for public safety to use "Body Gripping" traps.

B. Policy

In the event that Provincial regulations are imposed and Conservation Officers use "Body Gripping" traps they will be requested to:

1. Advise the Town of Gibsons Chief Administrative Officer or his designate the reason for, location and number of traps being used.
2. Post signage at trail entrances or public access areas to warn the public of the potential danger from the dangerous animal and the use of "Body Gripping" traps.
3. Once the animal has been captured or the "Body Gripping" traps have been removed the Conservation Officers will be asked for a brief report which will be submitted to Council for information purposes only.

C. Procedures

1. This policy will be referred to the local Conservation Officers and their cooperation solicited.
2. When Conservation Officers use "Body Gripping" traps they will be asked in writing to provide the information and the signage as noted above.

Town of Gibsons
Mr. Lony Miller
Corporate Officer
474 South Fletcher Road
Gibsons, BC, V0N 1V0

May 5, 2011

Dear Mr. Miller,

In response to the recent leg-hold trapping incident of Vicki Starfire's dog, the BC SPCA is writing in support of banning of all leg-hold traps in your area. Despite being a legal means of trapping wildlife, even modified leg-hold traps are not considered humane as per our standards. Further, the risk of harming non-target species is significant, which can greatly increase suffering. I have include a copy of the BC SPCA's position on trapping and hope that you will distribute it among your colleagues for consideration.

Sadly, this is not the first incident of family pets being injured or even killed by legal or illegal leg-hold traps, as it occurs throughout our province in suburban, rural and wilderness transition areas. Vicki's dog was lucky to survive its' injuries, however it will take a long time for both owner and dog to overcome this trauma, and the dog may never be the same. We hope that you can prevent any further harm to pets in your community and reduce the suffering of legally trapped wildlife by banning this method of trapping in your area.

Please contact me if you have any further questions about the BC SPCA's position on trapping.

Best regards,

Sara Dubois, BSc, MSc, RPBio
BC SPCA Manager of Wildlife Services

To: Alan Harrison
Subject: NOTICE - CN RIGHT-OF-WAY VEGETATION CONTROL

Dear Mayor Harrison:

At CN, we are committed to environmental safety and sustainability. We are reaching out in order to advise you, that we will be undertaking vegetation control activities for safety purposes, in your area between June 3, 2019 and June 30, 2019. This information will also be made available on the CN website (www.cn.ca/vegetation) shortly.

If not managed properly, trees, brush or other vegetation can severely compromise public safety, including by impeding the view motorists have of incoming trains, increasing the risk of crossing accidents. Moreover, unwanted vegetation can damage the integrity of the railway, increasing the risk of incidents, interfere with signals and switches, contribute to track side fires, compromise employee safety, reduce visibility for train crews at road crossings, of signals and other track side warning devices, to name only a few risks. Our annual vegetation control program is designed to mitigate these risks by eliminating brush, weeds and other undesirable vegetation.

For 2019, CN has retained Asplundh Services to conduct vegetation control along its Canadian rail network.

Should your Town/City have any noxious weed removal requests, we ask that you contact CN's Public Inquiry Line at contact@cn.ca before June 26, 2019 with the specific information and location. CN will make every effort to include those locations as part of our 2019 Vegetation Management Program. All notices sent after the above mentioned date will be included in the 2020 Vegetation Control Management Plan.

We look forward to collaborating with you and answering any questions you may have regarding our vegetation control activities in your community. In that respect, please find attached the Notices CN is publishing in local papers in order to advise the public. We would kindly ask that you post copies on your Community's website and at City Hall or other central locations for a wider distribution.

For any questions or more information, please contact the CN Public Inquiry Line by telephone at 1-888-888-5909, or by email at contact@cn.ca.

For your convenience, please also find attached a list of FAQ's regarding the program that may be of further assistance.

24

Best Regards,

Public Inquiry Line

E : Contact@cn.ca

T: 1-888-888-5909

COMMUNITY NOTICE
Annual Vegetation Management Program

CN is required to clear its rights-of-way from any vegetation that may pose a safety hazard. Vegetation on railway rights-of-way, if left uncontrolled, can contribute to trackside fires and impair proper inspection of track infrastructure.

As such, for safe railway operations, the annual vegetation control program will be carried out on CN rail lines in the province of British Columbia. A certified applicator will be applying herbicides on and around the railway tracks (mainly the graveled area/ballast). All product requirements for setbacks in the vicinity of dwellings, aquatic environments and municipal water supplies will be met.

At this time, we expect that the program will take place from June 3, 2019 to June 30, 2019.

Visit www.cn.ca/vegetation to see the list of cities as well as the updated schedule.

For more information, you may contact the CN Public Inquiry Line at 1-888-
222-5000

Annual Vegetation Management Program

FAQ'S

Where can I get more information about CN's vegetation management program?

For more details about CN's Annual Vegetation Management Program, please visit our website at www.cn.ca/vegetation

Why does CN need to remove vegetation along its train tracks annually?

Safety at CN is one of our most important core values, and part of maintaining and operating a safe railway is ensuring vegetation is managed along our corridor. CN also has an obligation, pursuant to the *Rules Respecting Track Safety*, adopted under the *Railway Safety Act*, to ensure that vegetation on or immediately adjacent to the railway roadbed is controlled. More specifically, the Rules require federal railways to ensure the track is free of vegetation that could create fire hazards, affect the track integrity or obstruct visibility of operations and inspections. Separate regulations also require removal of vegetation to ensure every grade crossing meets sightline requirements.

Where does CN remove vegetation?

Please note that for the management of vegetation, CN divides its corridor into two components: the ballast and the right of way. The ballast section (graveled area) covers a 16ft width (4.9m). The right of way section covers a 42ft width (13m) on each side of the ballast (graveled area).

Vegetation in the right of way section needs to be controlled to protect sight lines for train crews to see signal systems and at road crossings, prevent trees from fouling the track during storms, reduce fuel loading to prevent fires, minimize wildlife mortality, ensure

Annual Vegetation Management Program

good drainage along ditches and culverts, amongst other safety requirements and is primarily controlled mechanically, through mowing and cutting of vegetation. Certain herbicide products are used (excluding glyphosate) to encourage grasses and small plants rather than shrubs and trees.

The ballast section, on the other hand, is the most critical area as it supports the track infrastructure which supports the movement of freight and passengers; this section also provides an area for train crew to safely inspect their train. Given the crucial role it plays in ensuring the safety and integrity of rail operations, this section must be devoid of all vegetation. The only proven way to effectively remove vegetation in the ballast section is through chemical application.

How will you manage dry plants and herbs left once the spraying is complete?

Ensuring vegetation is controlled on an annual basis is the best method to reduce larger volumes of dead and dry plants. This is because it kills plants when they are smaller which reduces the amount and volume of dead plant material. CN's 2019 program has been developed specifically with this in mind. Most plants, once dead, will naturally decay leaving little debris. As for the right of way, the herbicides used are selective and the grass cover will remain intact while any broadleaved species or noxious weeds will be controlled.

Will you be using Glyphosate. If so, is it dangerous for us or my pets ?

All pesticides used in Canada must be registered by Health Canada's Pest Management Regulatory Agency (PMRA) and CN only uses pesticides that have been approved for use in Canada and in the Province within which they are applied. Protection of human health and the environment is Health Canada's primary

Annual Vegetation Management Program

objective in the regulation of pesticides and all pesticides must undergo rigorous science-based assessments before being approved for sale in Canada. The PMRA also re-evaluates registered pesticides on a cyclical basis to ensure they continue to meet modern health and environmental standards. In this regard, the PMRA re-evaluated glyphosate in 2017 and reaffirmed its conclusions that products containing glyphosate do not present risks of concern to human health or the environment when used in accordance with revised label directions. CN's vegetation control contractor uses glyphosate in accordance with label directions.

Has CN tried any non-chemical weed control options in the past, such as weed whacking? Have they worked?

CN has used weed cutting in the past to control vegetation, but this does not remove the roots, and actually encourages more growth, therefore it is not an effective long-term solution for vegetation removal along railway tracks. The application of steam injection has also been investigated; however they have proven ineffective in killing the roots, which could compromise the integrity of the rail bed.

CN has also explored other options, such as high concentrate vinegar (acetic acid), however this was deemed not a viable option as the acid reacts negatively with steel and the sensitive electronic monitoring equipment used to regulate safe movement and operation of trains.

I am an organic farmer adjacent to your tracks, should I be worried?

Most of the vegetation control focuses on the ballast section (graveled area) which is 16ft (4.9 meters) wide, leaving about 13 meters of right of way on each side of the ballast. The equipment used for application is a shrouded boom which focuses the spray downward to reduce potential drift. Application must also be done during appropriate weather conditions, including low wind levels.

Can I request my area not be sprayed?

Safety is of utmost importance to CN and vegetation control is a key component of keeping our employees and the communities in which we operate safe. Ensuring vegetation is kept clear of our infrastructure, signals, road crossing sight lines and enabling our teams to inspect and maintain the track is critically important. As a result, we cannot choose to have a reduced safety management process in some areas and so all areas of the CN ballast section must be treated to control vegetation.

Subject: Canada's 1st Circular Procurement Summit - Attention Alan Harrison

Hello Allan,

I wanted to reach out to you to make you aware of Canada's first-ever Circular Procurement Summit, which is taking place in Toronto from June 11th to 13th, organized by the Recycling Council of Ontario.

The main objective of the summit is to enhance greater awareness of circular economy and how procurement plays an important role. Circular procurement is a tool for purchasers to leverage their buying power to stimulate circular products, services, and business models. Over the three days keynote speakers, experts in the field and guest speakers, will demonstrate how adopting circular procurement will help Canada meet economic and environmental goals.

To find out more information about the summit and speakers to date you can visit <http://rco.on.ca/circularprocurementsummit/>

We believe that you and your members would greatly benefit by attending the event and would appreciate the opportunity to discuss the summit and its objectives in more detail with you.

Best regards,

--

Honourable John Horgan,
Premier of British Columbia
PO Box 9041 STN Prov Govt
Victoria, BC V8W 9E1

Dear Premier Horgan:

Re: City of Abbotsford, Resolution: Criminal Justice Reform in British Columbia

On behalf of Abbotsford City Council, I am requesting your favourable consideration and resolutions of support for Criminal Justice Reform in BC to enhance efforts to address the Lower Mainland Gang Conflict.

At the April 15, 2019 Council Meeting, Council approved the following resolution:

Resolution: Criminal Justice Reform in British Columbia

WHEREAS British Columbia currently has the highest threshold/charge approval standard in Canada in proceeding with charges and criminal prosecution of gangsters while communities across British Columbia's lower mainland have concurrently seen a year over year rise in gang-related homicide and violence;

AND WHEREAS ongoing court delays favour the rights of the accused over the rights of victims and/or the community;

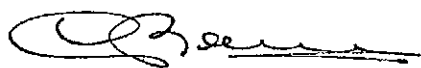

AND WHEREAS the Government of Canada committed \$328-million over 5 years beginning in 2018, and \$100-million annually thereafter to tackle the increase in gun related violence and gang activity in Canada as well as \$43 million annually in the National Crime Prevention Strategy to develop cost-effective ways to prevent crime among at-risk populations and vulnerable communities.

THEREFORE BE IT RESOLVED that the Mayor's Caucus/UBCM request that, in support of addressing the ongoing gang violence across the lower mainland of BC, the Province of BC and BC's Attorney General and Minister of Public Safety immediately begin working with the Government of Canada to take steps to explore initiatives to address issues within the British Columbia justice system including BC's restrictive charge approval standards, the ongoing high volume of court delays as well as measures to address community safety in support of the rights of all Canadians to live in safe communities.

We look forward to your support on this matter.

Yours truly,

Henry Braun
Mayor

Honourable John Horgan,
Premier of British Columbia
PO Box 9041 STN Prov Govt
Victoria, BC V8W 9E1

Dear Premier Horgan:

Re: City of Abbotsford, Resolution: Continued Widening of TransCanada Highway # 1, through the Fraser Valley

On behalf of Abbotsford City Council, I am requesting your favourable consideration and resolutions of support for the continued widening of the TransCanada Highway #1, through the Fraser Valley.

At the April 15, 2019 Council Meeting, Council approved the following resolution:

Resolution: Continued Widening of TransCanada Highway #1, through the Fraser Valley

WHEREAS the critical congestion problems on the TransCanada Highway between the Fraser Valley and the Port Mann bridge continue to interrupt a safe, reliable and efficient multi-modal transportation network that supports employment and economic development movement of goods and services, as well as job creation for the Province of BC;

AND WHEREAS the Federal Government has already identified the continuation of the next phase of the TransCanada Highway 6-laning improvements from 216th street to the Whatcom Road interchange as a priority to expand markets for key local economic sectors, support thousands of residents in accessing employment, support the continued success of the Abbotsford International Airport, provide access to Universities, hospitals, aid in the reduction of greenhouse gas emissions, improve affordability of families, and support increased public safety through the reduction of traffic congestion:

THEREFORE BE IT RESOLVED that UBCM lobby the provincial government to prioritize funding toward the expansion of the TransCanada Highway through the Fraser Valley;

AND BE IT FURTHER RESOLVED that this funding be made a high priority of the government of British Columbia.

We look forward to your support on this matter.

Yours truly,

Henry Braun
Mayor

CITY OF BURNABY
OFFICE OF THE MAYOR
MIKE HURLEY
MAYOR

2019 May 02

Dear Mayor and Council:

Subject: Expanding Investment Opportunities
(Item No. 6(J), Reports, Council 2019 April 29)

Burnaby City Council, at the Open Council meeting held on 2019 April 29, received the above noted report and adopted the following recommendations, **AS AMENDED**:

1. THAT Council provide support for changes to the Community Charter to allow for expanded asset class investments under prudent investor rules.
2. THAT Council request support from other municipalities and regional districts for the requested changes to the Community Charter.
3. THAT Council submit a resolution, as outlined in Section 4.1 of this report, to the Union of British Columbia Municipalities, as outlined in this report.

In accordance with Recommendation No. 2, a copy of the report, containing text of the resolution, is *enclosed* for your information.

Burnaby City Council appreciates your support on this matter.

Yours truly,

Mike Hurley
MAYOR

FINANCIAL MANAGEMENT COMMITTEE

*HIS WORSHIP, THE MAYOR
AND COUNCILLORS*

SUBJECT: EXPANDING INVESTMENT OPPORTUNITIES

RECOMMENDATIONS:

1. THAT Council provide support for changes to the Community Charter to allow for expanded asset class investments under prudent investor rules.
2. THAT Council request support from other municipalities for the requested changes to the Community Charter.
3. THAT Council submit a resolution, as outlined in Section 4.1 of this report, to the Union of British Columbia Municipalities, as outlined in this report.

REPORT

The Financial Management Committee, at its meeting held on 2019 April 24, received and adopted the attached report requesting Council to support changes to the Community Charter to allow for prudent investor rules, thus expanding investment parameters and opportunities.

Respectfully submitted,

Mayor M. Hurley
Chair

Councillor S. Dhaliwal
Vice Chair

Copied to:	City Manager Director Finance

SUBJECT: EXPANDING INVESTMENT OPPORTUNITIES

PURPOSE: To request Council to support changes to the Community Charter to allow for prudent investor rules, thus expanding investment parameters and opportunities.

RECOMMENDATIONS:

1. **THAT** the Committee recommend Council provide support for changes to the Community Charter to allow for expanded asset class investments under prudent investor rules.
2. **THAT** the Committee recommend Council request support from other municipalities for the requested changes to the Community Charter.
3. **THAT** the Committee recommend Council submit a resolution, as outlined in Section 4.1 of this report, to the Union of British Columbia Municipalities as outlined in this report.

REPORT**1.0 INTRODUCTION**

Financial investments form a critical part of the activities of a municipality, providing a source of revenues for capital expenditures and to offset cash flow fluctuations. The allowable investment parameters as laid out in the Community Charter is considered a “prescribed” or a “closed” set of legislated guidelines designed to protect municipalities from taking unnecessary or undue risks. The concept being that the current regulations provide for a list of instruments that can be placed in the portfolio, instruments that are considered the most creditworthy and least risky, such as provincial debt obligations and investments in financial institutions in Canada. What occurs in a market such as Canada, which represents less than 3% of the global economy, is an over concentration of holdings and limited investment diversification due to the regulation limitations.

The parameters set and limitations for investment powers and opportunities has not changed for decades in British Columbia. The purpose of the proposed changes to Section 183 of the Community Charter is to provide municipalities with the ability to obtain improved returns

through asset class diversification, which in return can reduce tax implications and funding costs associated with capital funding; while also reducing investment risks. Analysis and discussion for structured governance will be critical to determine the scope of change and authority granted through legislated changes. However, the purpose of this report is to start the conversation with the Province.

2.0 POLICY SECTION

Goal

- A Connected Community
 - Partnership –
Work collaboratively with businesses, educational institutions, associations, other communities and governments
- A Dynamic Community
 - Economic opportunity –
Foster an environment that attracts new and supports existing jobs, businesses and industries
 - Community development –
Manage change by balancing economic development with environmental protection and maintaining a sense of belonging
- A Thriving Organization
 - Financial viability –
Maintain a financially sustainable City for the provision, renewal and enhancement of City services, facilities and assets

3.0 MUNICIPAL INVESTMENTS

3.1 Investment Funds

Part 6, Division 3, Section 183 of the Community Charter provides investment guidelines to British Columbia municipalities. These legislated guidelines state that municipalities may invest or reinvest money that is not immediately required for expenditures as follows:

183 Money held by a municipality that is not immediately required may only be invested or reinvested in one or more of the following:

- (a) securities of the Municipal Finance Authority;
- (b) pooled investment funds under section 16 of the *Municipal Finance Authority Act*;
- (c) securities of Canada or of a province;

- (d) securities guaranteed for principal and interest by Canada or by a province;
- (e) securities of a municipality, regional district or greater board;
- (f) investments guaranteed by a chartered bank;
- (g) deposits in a savings institution, or non-equity or membership shares of a credit union;
- (h) other investments specifically authorized under this or another Act.

The British Columbia provincial government is responsible for the laws and framework that provide governance across the province. The *Municipal Act* has provided this guidance since the 1880's. In 1991, UBCM proposed the idea for the creation of a Bill of Rights for municipalities for the purpose of providing broader powers and greater freedoms for BC municipalities. The *Local Government Act* was then created and received Parliamentary approval in 1996. Finally, with Royal Assent in August 2001 of the *Community Charter Council Act*, a Community Charter Council was created for the purpose of developing the *Community Charter*.

BC municipalities have managed investment portfolios under these guidelines as a matter of fiduciary responsibility and with due diligence. Internal investment guidelines support each municipality's investment activities within the constraints of the *Community Charter*. While protectionist in nature, the regulations actually place inadvertent restrictions on the ability to generate higher rates of return and increased revenues, as well as limiting asset class diversification which is paramount to financial sustainability and risk diversification. Currently, BC municipalities can invest in two of the four main asset classes - money market (including cash equivalents) and fixed income (bonds). The other two asset classes include equities and real estate (or other tangible assets). This limitation in turn affects the portfolio real rate of return once inflation is considered and it affects annual taxation rates and other capital costs for a municipality.

3.2 Prudent Investor Rules

The prudent investor rule (aka prudent investor standard) requires the investment manager of an organization to conduct investment activities with care, skill and due-diligence for that which a prudent person would do when managing their own investments, such as property, cash or securities. Such a person would therefore deploy investments through a diversification strategy that can potentially reduce risks while enhancing returns.

A prudent investor would therefore have flexibility and seek opportunities based on market and economic cycles, as well as utilize diversification opportunities both in and outside of Canada. For a municipality, benefits from increased returns can reduce taxation requirements and fees. Without a change to provincial legislation, BC municipalities will continue to invest in

prescribed investment products which under varying market conditions, like the historical low interest rates experienced over the last 10 years that has in turn translated into the lowest yields and lower income.

3.3 Prudent Investor Rules – Other Jurisdictions

Various municipalities and pensions maintain prudent investor rules such as the cities of Ottawa, Edmonton, Calgary, Medicine Hat and more recently the City of Toronto. In 2000, the Canada Pension Plan began investing in equities and other investment products (real estate, commodities and futures) with the main goal of seeking higher returns and to stabilize the Canada Pension Plan (CPP) program for future generations. This change meant a more diversified and global deployment of funds for capital appreciation, taking advantage of a much larger global market than just Canadian content.

When the Province of Ontario decided to make changes to the municipal legislation, it was for the purpose of providing municipalities more flexibility. Thus, allowing local governments more freedom to invest available funds in a larger pool of diversified investment products. Providing the added flexibility and freedom could potentially deliver higher returns while lowering or removing systemic risks, reinvestment risks and interest rate risks. The Ontario government put in place specific requirements that a local government must meet to permanently opt into the prudent investor program. The logic was to ensure appropriate governance and structure was in place with separate guidance from an independent board for the expanded portfolio.

The City of Toronto is currently preparing to place their initial investments into equities now that the legislated requirements for prudent standards have been met. The City of Ottawa however has been investing endowment funds of over \$200 million since 2007. Ottawa conducted an RFP and hired two fund managers to manage the investments of the endowment. Applying prudent investment standards to the endowment funds has allowed the City of Ottawa to generate much higher yields over the last decade when compared to the funds invested based on the prescribed legislation. Also, the City of Ottawa is watching Toronto's activities closely and will contemplate the opt-in decision for the remaining portfolio funds as they have first-hand knowledge of the large differential in returns between their funds.

The City of Edmonton began investing in equities in 1995 with the creation of an endowment fund. A May 2014 staff white paper identified that through the use of asset class diversification, the endowment fund has contributed well over \$700 million to the City of Edmonton's operating budget and the fund has grown from \$445 million to \$710 million. Staff reports indicate that the change to investment structure has allowed the city to achieve cost efficiencies and to better align the portfolios with specific risk profile needs and objectivity. This in turn allows for the creation of new asset class investing, such as global infrastructure and emerging market equities, while achieving the goals of increasing overall returns and long term financial sustainability.

Another report highlighted that Edmonton home owners have saved over 7% for the period 2005 – 2014 on property taxes paid. Not only have the funds increased returns resulted in a reduction of the tax burden on citizens, but has and will continue to the support the city's financial position

and sustainability. The investment diversification through prudent investor rules has meant an expanded revenue base for operating and capital budgets.

3.4 Prudent Investor Rules – Capacity and Knowledge

While providing expanded investment options to municipalities through legislation can achieve many benefits, consideration must be made regarding municipal capacity and expertise. Any change in legislation will require municipal input in determining the governance structure that will work best for the province and each municipality. With examples from Ontario and Alberta now in place, this presents a tremendous opportunity to learn from the legislative process and experiences and to understand the need for improvements and the request to change.

Because of the vast range of assignments and work conducted in municipal treasury, the current staff compliments most likely will not have the expertise to branch out into a larger array of investment asset class products. Indeed, smaller municipalities have very few staff that manage varying professional disciplines such as budgets, banking, trades payable, accounting and investments. There are however significant differences amongst the municipalities in the lower mainland and across the province when it comes to portfolio management expertise and knowledge. So governance must consider inclusion for all without creating additional costs and risks.

Such risks can be mitigated through pooling investments or contracts with qualified funds managers through the set-up of simplified but effective reporting standards and clear guidelines. Under prudent investment standards the need for monitoring the decisions made, portfolio performance, policy and governance principles becomes even greater. Setting the criteria by thoughtful consideration will ensure a more comprehensive and general acceptance and adaptation by municipalities. The goal is not to make prudent investing an impossible challenge, but to ensure there is significant and meaningful impact when prudent investment standards are followed.

4.0 REQUIRED CHANGE IN LEGISLATION

The City of Burnaby has maintained a concentrated and focused effort on the investment portfolio for over three decades. This attention has provided for consistently improved yields and income generation. While the City of Burnaby has outperformed market benchmarks and municipal peers, there are still missed opportunities due to investment restrictions based on the current legislation.

While protectionist in nature, a “prescribed” or “closed” set of guidelines can introduce unintended risks by being extremely limited, thus introducing systemic and interest rate risks to a municipal portfolio. This can increase in magnitude for a large portfolio that seeks additional product and yield within the limited reach and size of the Canadian fixed income market. The *Community Charter* provides clarity but does not empower a municipality to obtain greater investment variation and seek to reduce risk further through asset diversification and allocation.

It is therefore proposed that by providing prudent investor standards within the *Community Charter* or other provincial legislation, risk versus reward through asset class diversification can culminate into various funding and cash flow opportunities as returns increase. If the City of Burnaby moved 30% of current holdings to other asset classes for example (Edmonton has 60% of the endowment fund in equities), with only a 2.5% increase in yield on that portion of the portfolio, the annual additional revenue would be \$12.75 million per year.

The evidence is very clear from municipal examples to pension plans and historical analysis that asset mix is a critical determinant of long term investment fund stability, yield and income. Maintaining a set of guidelines that limits municipal investing to a restricted list of products within limited asset classes will result in what is occurring in many municipal portfolios today – yields that range from 1.50% - 3.00% with significantly reduced income. The current standards limit municipal investments to the Canadian market only and to the fixed income asset class which is based on Canadian interest rates only.

The size and utilization of the City’s investment reserves, without debt payment obligations other than internally through annual depreciation, means we are well positioned for the longer term investment time horizon that is needed under other asset classes such as equities and real estate. Providing proficient and transparent oversight to the investment portfolio ensures the City of Burnaby is acting in the best interest of citizens. This also means identifying that as investment markets and economies have changed over the years, opportunities have been missed. The best starting point is to begin the conversation about making changes to the current investment legislation in British Columbia.

And while those opposed to change may suggest that introducing the prudent investor rules will bring with it needless risks, one must consider that risk is defined in many ways, including the long term financial sustainability of municipalities and the tax burden placed on residents. Risk diversification also means fund managers and fund management, not just guarantors and asset class diversification. Risk management means a governance structure that takes into consideration the varying investment strategies that can be deployed and empowering municipalities to diversify and grow for future generations of citizens. For these reasons, updating legislation to include prudent investment rules is practical and warranted.

4.1 Resolution: Expanded Asset Class Investments Under Prudent Investor Rules

Given the discussion above, and recognizing that the ability to properly manage and grow assets is an important role of local government, the following resolution has been prepared for the Committee and Council’s consideration.

WHEREAS financial investments form a critical part of the activities of a municipality, providing a source of revenues for capital expenditures and to offset cash flow fluctuations;

To: Financial Management Committee
From: Director Finance
Re: Expanding Investment Opportunities
2019 April 24..... Page 7

AND WHEREAS allowable investment parameters as laid out in the *Community Charter* is considered a “prescribed” set of legislated guidelines.

AND WHEREAS the Provinces of Alberta and Ontario have implemented a wider scope for local government investment, which responds to the needs of local governments of all sizes:

THEREFORE BE IT RESOLVED that the Union of BC Municipalities request the Ministry of Finance to amend the *Community Charter* to provide municipalities with the ability to obtain improved returns through asset class diversification, which in return can reduce tax implications and funding costs associated with capital funding, while also reducing investment risk.

5.0 RECOMMENDATIONS

It is recommended that the Committee recommend Council provide support for changes to the Community Charter to allow for expanded asset class investments under prudent investor rules. It is also recommended that the Committee recommend Council request support from other municipalities for the requested changes to the Community Charter and that a resolution, as outlined in Section 4.1 of this report, be submitted to the Union of British Columbia Municipalities on this matter.
