To Whom It May Concern:

Following a discussion with our neighbour, Diana Carlson of 2091 20th Street NE Salmon Arm V1E 2G3, we understand that they are hoping to add an addition to their home this upcoming spring.

Diana was asking if we have any issues or concerns with them requesting a variance for the new construction as the addition might be located close to our shared property lines.

That portion of their property lies beside our workshop and we don't see any reason why this would impact our views or privacy.
